

## FUSE Research – Associate Research Director

### Objectives & Responsibilities

The Associate Research Director at FUSE Research will be a major contributor to the research agenda and a key component in supporting FUSE Research clients. The individual will be able to own independent research projects and deliver complete client-direct research through surveys and/or interviews. Additionally, day-to-day contribution to ongoing research deliverables will be expected.

- Support FUSE client ad hoc research requests originating from Director of Research and Client Relationship Managers;
- Scope, plan, and execute client-directed research while leveraging FUSE Research Analysts and Editorial staff;
- Contribute to the ongoing publications of FUSE research (issue briefs, white papers, client presentations, firm profiles, etc.);
- Develop and conduct surveys of clients and/or select targeted firms to support research agenda or specific areas of client inquiry;
- Assist in the maintenance, management, and production of ongoing FUSE client reporting with focus on enhancements to existing report suite;
- Maintain and develop client relationships where necessary;
- Work on addition research-related activities as determined by Research Director.

### Qualifications

- BA/BS required, advanced degree/designation (MBA/CFA) preferred;
- 6+ years' experience within financial services or asset management with focus on product development and retail sales/marketing practices;
- Project Management – ability to frame research deliverables, set appropriate client expectations, and manage project to conclusion;
- Analytic Skills – candidate must be capable of researching, analyzing, and delivering conclusions on key issues facing our clients;
- Excellent writing and composition ability needed to deliver high-quality research end product;
- Strong verbal communication and presentation skills;
- Proficient with Microsoft Office Suite (Word, Excel, PowerPoint, Outlook).

FUSE Research Network offers competitive salaries, bonuses, and incentives.
